„Our fate is not the policy,
but rather the economy.“

Walther Rathenau (1867-1922), German industrialist and politician

Welcome to a community that stands for economic responsibility and provides a platform for the interests of European entrepreneurs. Welcome to the European Economic Senate!

The European Economic Senate (EES) would like to introduce itself and provide an insight into its scope of work. As an institution for outstanding entrepreneurs and enter-

prise managers, it is a matter of great importance to the EES that its activities are presented in a transparent and reasonable manner.

The EES considers itself as platform for the external presentation of companies, a place for the exchange of opinions and experiences and a guidepost to the relevant political decision-makers in Europe. For our members' interests we activate our networks to top-class organisations, arbitrate between points of contact in the area of policy and administration and show the shortest and most successful strategies based on many years of experience so as to connect interests and suggestions with the appropriate addressees.

I would like to invite you to get into touch with the European Economic Senate, to support our work and to discuss urgent European economic issues with us.

Sincerely,

Dr. Ingo Friedrich
President of the European Economic Senate,
Vice-President of the European Parliament ret.
Munich, April 2015
